Ultra Sonic Gas Meter ECOSONIC X 12

Three devices in one:

■ **Gas Meter**
No moving parts, maintenance-free and safe against overcharge
No pressure drop
Checking of the Quality by every measured value
Remote control and monitoring possible

■ **Volume Corrector:**
Possible with integrated pressure and temperature sensor.
Conversion of the measured volume Vm in to the billable Standard(base) volume Vb.

Compressibility factor „K" acc. to the following methods:
K = constant for p < 2 bar
GERG 88S
AGA NX19-L, -H
AGA 8 GCM (1 and 2)

Parameters to change:
Composition of gas
Correction period : 1 up to 30 sec
Base pressure and temperature values

■ **Tariff device:**
Database for measured values and logbook:
Saving of all recorded values and logbook up to 2 years
The values and logbook are to every time readable
Protected against manipulation
